

**CMD(Administrative mode):**

```
cd ../..
cd mini/3075 , or, cd mini(if project files are there in mini)
dir *.ui
pyuic5 idplf.ui -o idplf.py
pyuic5 limage.ui -o limage.py
pyuic5 disease.ui -o disease.py
pyuic5 moist.ui -o moist.py
pyuic5 temprt.ui -o temprt.py
pyuic5 ltype.ui -o ltype.py
pyuic5 ptype.ui -o ptype.py
dir *.py
python idplf1
```

The above command gives screen, and from there you can follow the screen buttons

**SQLITE3:**

```
.open idplf1
```

```
CREATE TABLE pdisease
(
  planttype varchar(15),
  anthracnose char(1),downy char(1),eblight char(1),lbleight char(1),
  lspot char(1)
);
```

```
CREATE TABLE ptype
(
  planttype varchar(10)
);
```

```
CREATE TABLE temprt
(
  temperature varchar(10)
);
```

```
CREATE TABLE moist
(
  moisture varchar(10)
);
```

```
CREATE TABLE ltype
(
  leaftype varchar(10)
);
```
